

6.(amended) The composition as claimed in [any one of the preceding claims] claim 1, wherein the one or more overbased metal detergent has or have a TBN in the range of 60 to 600[, such as 100 to 450, preferably 160 to 400].

A¹
7.(amended) The composition as claimed in [any one of the preceding claims] claim 1, wherein the one or more overbased metal detergent is or are calcium salicylates.

8.(amended) The composition as claimed in [any one of the preceding claims] claim 1, wherein the antiwear additive is a zinc salt.

A²
10.(amended) A method of lubricating a medium speed compression-ignited marine engine, which method comprises supplying to the engine the truck piston marine engine oil lubricating composition as claimed in [any one of claims 1 to 8] claim 1.

Please add the following claims:

11. The composition as claimed in claim 2, further comprising a fuel oil with a residual fuel content, in a minor amount.

12. The composition as claimed in claim 2, having a TBN in the range of 25 to 100.

A³
13. The composition as claimed in claim 2, wherein component (B) is present in the composition in an amount in the range of 0.5 to 30 mass %.

14. The composition as claimed in claim 2, wherein the one or more overbased metal detergent has or have a TBN in the range of 60 to 600.

15. The composition as claimed in claim 2, wherein the one or more overbased metal detergent is or are calcium salicylates.

16. The composition as claimed in claim 2, wherein the antiwear additive is a zinc salt.
